# MOLLY JENKINS

REPUBLICAN HOUSE DISTRICT 33

**NO LOBBYIST MONEY**

**House District 33 Deserves a  
Conservative State Representative**

## THE MOLLY JENKINS PLATFORM

**V**ote against the corporate welfare programs frequently supported by the incumbent. This includes the **millions he gave away to the pro-CCP NBA**. These many give aways favor the elite, who have the means to hire lobbyists, legal counsel, and financial experts, leaving the common citizen behind.

**S**tay free of outside influence by rejecting donations and gifts from lobbyists and their employers. The influx of such funds has often led to our elected 'Republican' representatives frequently voting against our values.

**U**phold the sanctity of life, defend the 2nd Amendment and ensure our children's educational environments are free from inappropriate content with a focus on safeguarding and protecting them from emerging, dangerous woke ideologies.

**S**tand against extremist ideologies from the left. They are destroying our nation! Oklahoma's voting regulations, especially the ones permitting unrestricted mail-in voting, are susceptible to manipulation and urgently need revision. **The incumbent's proposal to give driver's licenses to illegal aliens must be stopped!** Radical leftist State Supreme Court members have egregiously undermined election security and the rule of law. They must be impeached!

**M**olly Jenkins and her husband, Brett, reside on a 70-acre farm near Coyle where they raise cattle and cherish the rural way of life. Molly recognizes that this cherished lifestyle is under threat from the attacks of the left and the tepid response of the right.

A mother and grandmother of two, Molly earned her BA from OSU and a Master's degree from UCO. Molly dedicated a decade to the world of education as a middle school teacher and adjunct professor.

Subsequently, she owned and operated her real estate brokerage, Vis-A-Vis Realty. Now, as she retires her brokerage, Molly is channeling her energy towards providing a voice for the conservatives in House District 33 who have long desired an authentic conservative as our state representative.

Molly is a true fighter, and feels the current incumbent is compromised by his dependence on special interest funds. He has cast many liberal votes.

Molly believes that the residents of House District 33 deserve a genuine conservative representative—**one who will reject all lobbyist money**—and remain free from their influence.

If elected on June 18th, Molly will be an unwavering advocate for our values, and a tireless warrior for the preservation of our conservative way of life. **She will be one of the very few elected officials who will not change after election day.**
